Exceeding Expectations

From the very beginning, Unity Document Solutions has been energised by the belief in the power of creative ideas. We envision a world where information can be copied precisely and distributed at the touch of a button—a world where critical business knowledge is available anywhere, anytime.

Our managed print services deliver Multifunctional Devices (MFDs) that print, copy and scan – acting as the cornerstone of workplace technology. They provide rapid, reliable and high-quality printing for your teams, while being the gateway to digital document management and workflow processes. As one of the most reputable independent UK managed print services providers of Ricoh, Docuware, Papercut, Invenry and more, we're expertly placed to supply, manage and maintain your MFDs so they're efficient, secure and always ready..

Our ethos with ambition

As implied by the name, Unity is a business that unifies two distinct, yet complementary, aspects of the industry. Our business is built around leveraging the research and development, technology and infrastructure of global hardware and software suppliers whilst blending this with local knowledge, logistics and after sales support.

These two aspects will combine to deliver cutting edge hardware and software backed by the peace of mind of local customer care and support.

Aligning values with people, places & experiences

The Unity Way.

A culture of values, a culture of growth.

Customer centric approach

Engrained in our culture is to always put the customer first and deliver an exceptional customer experience in all areas of our

Commitment to the planet

Our commitment to sustainability is a part of our heritage and touches every part of our company, from distribution to servicing, business sites to recycling. Environmental awareness underpins everything we do.

Any business, any environment

Print management solutions

Our core solution

The tools, technologies and expertise you need to meet tomorrow's toughest work challenges.

Anything in Print

Tailored services to boost output and transform your production print environment.

Managed Document Services

Bespoke solutions to help your organisation optimise your use of information.

Partnering with leading brands...

Brands we value and work with

InVentry are a pioneer of sign in and visitor management systems, trusted by over 10,000 schools across the UK. Their system transforms the efficiency of entry into your school and provides secure digital data on every entry or exit; giving you maximum traceability for pupils, staff, contractors and visitors.

Their products are continuously developed in-house and provide a smart solution to site security and tracking - as well as offering schools an extra sense of security for the safeguarding of pupils.

At Ricoh, we're leading change at work with the aim of attracting, engaging and inspiring employees and customers alike. By combining our globally recognized expertise across industries, technologies and domains with our wide range of hardware, software and services, we deliver fit-for-purpose solutions that achieve your business goals. Discover how it all started. Read about the legacy, philosophy and community activities that shape our present, along with the vision, mission and values that guide us into the future.

DocuWare document management software automates business processes and workflows by electronically managing and sharing documents regardless of their format or source.

Either on location or in the cloud, documents are readily available, where and when needed; with just one search needed to quickly locate related documents.

In a nutshell, papercut is a print management software which inspires earth- and pound-saving behavior by giving you powerful visibility and control over who prints what (and how much). It's led to the wider PaperCut team saving over 750 million sheets of paper to date – that's like 80,000 trees!

It also makes your day-to-day a lot easier. After all, what really sets their solutions apart is how simple they are to install and use – no matter your size, your printers, or the devices and operating systems your users bring to the table. Everything just works.
